Re: *Connecting Glendale 2020* Bicycle and Pedestrian Plan

---

The attached documents represent the working first draft of *Connecting Glendale 2020*, the City's Bicycle and Pedestrian Plan. It is being submitted for general review by the Plan Commission. This draft primarily includes feedback from the public input process and insights on existing conditions in the City of Glendale. The draft also includes the *Connecting Glendale 2020* vision, goals and objectives. Corridor-level recommendations are included in the Network Recommendations Map on p. 34 of the document. These recommendations address the high-level network and potential connections. More detailed recommendations are being developed and the feedback we receive from the Plan Commission and staff will be incorporated.

This draft is currently unformatted. Additional photos will be added and place holder photos will be replaced with Glendale specific photos wherever possible.

We have also included the full results of the Comment Form/Survey completed in early September. Additionally, the Digital Interactive Map comments and public recommendations can be reviewed here: <https://map.social/Community.php?CommunityID=240>
